

# E-LEARNING COVID-19 ACTIVITY

## Supported Virtual Education Through the Learning Management System (LMS)

89

New courses launched on the LMS between 2020-2021

102

Modules were updated or refreshed between 2020-2021

2022

New staff enrolled through virtual general orientation

## Harmonized Corporate Training

The LMS team updated and harmonized all Corporate Mandatory Trainings (CMT) to reflect an integrated Unity Health Toronto system.

### CMT includes:

- AODA Customer Service and Integrated Accessibility Standards Training
- Code of Conduct
- Fire Safety
- Workplace Violence and Harassment Awareness Training
- Violence in the Workplace Prevention Policy
- Privacy & Confidentiality
- WHMIS 2015 /GHS
- Supervisor Health and Safety Awareness
- Worker Health & Safety Awareness

## Provided Scalable Solutions to Maintain Safety & Education Quality During the Pandemic

The LMS system has been a crucial platform to store and track data across the organization. The LMS team has collaborated with various departments and teams during the pandemic.

### Includes:

- Collaborated with the Student Centre to quickly augment the capabilities of the student registration system when learning moved to a virtual setting
- Collaborated with Occupational Health & Safety to offer Mask Fit tracking and custom reporting so that leaders and managers could ensure those in the front-lines had up-to-date fittings
- Collaborated with Professional Practice & Nursing to provide specialized orientation for onboarding
- Collaborated with Occupational Health & Safety to provide COVID-19 Attestation module so that the organization could ensure that all employees understand their obligations and responsibilities with respect to maintaining knowledge and recognizing and reporting symptoms.
