

To help patients, clients, and residents stay connected with their loved ones during our no family-visitor period, we are happy to facilitate virtual visits for our patients, clients and residents who do not have their own phones or devices.

- Please do not record these visits.
- All electronic communication may have some risk Unity Health cannot be responsible for the security of the devices or platforms used for these visits.
- We may need to limit or end the virtual visit to protect the privacy concerns of other individuals or to support the care needs of our patients, clients and residents.
- The virtual family visit may not be used for family discussions with the health care team. If you have questions for the health care team please speak to them directly and we will arrange for this conversation.
