

Zoom: Joining Home Video Visits Using Apple Mobile Device

Download Zoom App

If you do not have Zoom downloaded on your device, go to 'App Store'  search for 'Zoom' and download the Zoom app.

It is recommended to download the Zoom app well in advance of your video visit appointment.

Test Zoom App on Device

Once the Zoom app is downloaded, test the audio and video by opening 'Safari'  on your device, and typing in zoom.us/test.

Tap on the 'Join' button, this will open a test call in the Zoom app.

A video preview window will open, select 'Join with Video'. In the next window, select 'Call using Internet Audio' to enable microphone.

Overview of Zoom Audio and Video Functions

Volume: to turn the volume of the call on or off.

Camera: to swap from front camera to back camera and vice versa.

Video: to turn video function on or off during the call.

Mute: to turn microphone on or off during the call.

Join Video Appointment

Open the home video visit invite email sent to you by your provider and click on the Zoom link in the email.

A video preview window will open. Select 'Join with Video'. In the next window, select 'Call using Internet Audio'.

You will be placed in a virtual waiting room until your provider starts the video visit.
