What are the benefits of using GeriMedRisk?

- Rapid access to an interdisciplinary team of geriatric specialists through phone and eConsult
- Response within 5 business days
- Pharmacy team conducts comprehensive best possible medication history
- Consult letter and tailored geriatric drug information provided to enhance practice and professional development

How GERIMEDRISK Works

How to consult

Provide the patient's clinical information and reason for referral through any of the following:

1. **Telephone:** Call toll-free 1 (855) 261-0508 between 9:00 am – 5:00 pm
2. **Ontario Telemedicine Network eConsult or Champlain BASE™ eConsult:** select "GeriMedRisk"
3. **Fax:** (519) 279-2959
4. **North Simcoe Muskoka Specialized Geriatric Services Central Intake form**

Clinical questions

We can answer any patient-related questions including and not limited to:

- Troubleshooting complex physical and mental health conditions. This may be while the patient is awaiting in-person support from Specialized Geriatric Services
- Optimizing medications or developing a deprescribing plan
- Identifying drug interactions and adverse drug events
- Providing information about drug-specific adverse drug events

Education: GeriMedRisk also offers free monthly webcast and accredited educational rounds on topics related to safe prescribing for older adults. To learn more: www.gerimedrisk.com/maillinglist
