

IPBR IMPACT REPORT

January to March 2023

Quarterly Highlights

WeRPN grant submitted: Novel Nursing Shift Assignment Toolkit on Interprofessional Role Clarity and Collaboration on Acute Care Inpatient Units

Community of Practice launched for small grants cohort of 2022-2024

IPBR continues to support the Professional Models of Care initiative across Unity Health Toronto including the pilot implementation of the Interprofessional Patient Care Needs Assessment Tool at Providence this quarter

Journal club initiative was launched at several practice councils. Journal articles will be shared via infographic on a quarterly basis for discussion.

Abstract accepted as a poster presentation at Canadian Association for Health Services and Research conference in Montreal, Quebec
