

## General Neurology Clinic Referral

Fax: 416-864-5712

Telephone: 416-864-5056

	St. Clair Ave. (to the North)	
Bathurst St. (to the West)	<b>Catchment area</b>	Coxwell Ave. (to the East)
	Lake Ontario (to the South)	

**Please note:** This is a general neurology clinic aiming to provide St.

Michael's Hospital and affiliated clinic patients with timely assessment of undifferentiated neurological symptoms.

**We do not have the capacity to see patients residing outside the catchment area except in rare circumstances (if the patient receives all their specialised/primary care at St Michael's).**

**We do not provide second opinions.** Patients who already have neurologists should be referred to their own neurologists.

**We cannot accept referrals for the following:** management of chronic pain (including chronic headaches), head-injury related problems, and neuropsychiatric symptoms. Please refer to appropriate specialized clinics.

**As we strive to provide timely evaluation for undifferentiated neurological disorders, we cannot assume longitudinal care for chronic neurological disorders which are best managed in specialty neurology clinics.**

### Patient Demographics

Last Name \_\_\_\_\_ First Name \_\_\_\_\_  
 DOB \_\_\_\_\_ OHIP Number \_\_\_\_\_ Version Code \_\_\_\_\_  
 Address \_\_\_\_\_ City \_\_\_\_\_ Postal Code \_\_\_\_\_  
 Phone Number \_\_\_\_\_ Alternate #. \_\_\_\_\_  
 Alternative Contact Person (name and phone number) \_\_\_\_\_

### Physician Information

Referring Physician (please print name): \_\_\_\_\_ Billing #: \_\_\_\_\_  
 Address: \_\_\_\_\_ Fax \_\_\_\_\_ Telephone \_\_\_\_\_  
 Results CC to (name and fax number) \_\_\_\_\_

### Referral Information – Please check the most appropriate reason for referral

Vertigo  Seizure/Epilepsy/Altered consciousness
