

Lecturer or Assistant / Associate / Full Professor – Academic Neurologist, Clinician Teacher or Clinician Educator

Division of Neurology, St. Michael's Hospital,
Department of Medicine, University of Toronto

The Departments of Medicine at St. Michael's Hospital and University of Toronto are seeking a qualified full-time academic neurologist with clinical expertise in multiple sclerosis. The successful candidate must be eligible for a full-time clinical academic appointment at the rank of Lecturer or Assistant, Associate, or Full Professor at the University of Toronto. The candidate will have an academic position description of Clinician Teacher or Clinician Educator. The expected start date of the position is January 2, 2026, but an earlier start is possible.

The successful candidate will hold an MD degree and should have, or be eligible for, certification in Neurology by the Royal College of Physicians and Surgeons of Canada and licensure with the College of Physicians and Surgeons of Ontario (CPSO). The successful candidate will also have fellowship training in multiple sclerosis (MS). The successful candidate will also have or be working towards a graduate degree or other advanced training relevant to their area of specialization. For details on the University of Toronto academic clinical faculty requirements for advanced training and demonstrated scholarship for the job descriptions of CT and CE, please see Table 2 at <https://deptmedicine.utoronto.ca/clinical-faculty-academic-appointments#Clinicalfacultyapptcategories>.

This position will support the large patient demands in the MS program at St. Michael's Hospital. In addition, the successful candidate will participate fully in the relevant MS educational activities, including supervision of fellowship trainees at St. Michael's Hospital and the University of Toronto. The successful candidate will also collaborate in clinical research programs and quality improvement programs. The Division currently consists of 20 full time neurologists with a long history and strong continuing focus on excellence in teaching. Participation in the neurology inpatient ward and consultation services, as well as providing on call coverage, is expected. The successful candidate will report to the Head, Division of Neurology at St. Michael's Hospital. Clinic work in the Barlo MS clinic will be under the direction of the clinic's Medical Director. .

Estimated remuneration will be determined primarily by clinical work, with potential for additional remuneration for leadership in academic or clinic activity.

Applications will be accepted until Monday, August 25, 2025. Should you be interested in this opportunity, please forward a one-page statement of interest, a curriculum vitae and the names and contact information of two internal and two external referees to:

Dr. Natalie Wong, Interim Physician-in-Chief
c/o Jessica Comilang, Administrative Assistant
St. Michael's Hospital
30 Bond Street, Room 1-420 Bond Wing
Toronto, Ontario M5B 1W8

St. Michael's Hospital is part of Unity Health Toronto, the network of Providence, St. Joseph's and St. Michael's Healthcare. St. Michael's is a teaching and research hospital founded by the Sisters of St. Joseph in 1892 to care for the sick and poor of Toronto's inner city. Affectionately known as the Urban Angel, St. Michael's is renowned for providing exceptional patient care. As downtown Toronto's adult trauma centre, the hospital is a hub for trauma

and neurosurgery, complex cardiac and cardiovascular care, therapeutic endoscopy, minimally invasive surgery and care of the homeless and disadvantaged. St. Michael's is also one of the province's major sites of care for critically ill patients. Fully affiliated with the University of Toronto, St. Michael's provides outstanding medical education to health-care professionals in more than 23 academic disciplines. Home to the Li Ka Shing Knowledge Institute, made up of the Keenan Research Centre and the Li Ka Shing International Healthcare Education Centre, the hospital integrates researchers, educators and clinicians to advance patient care.
